TOKENS
EMBOSSED TOKENS

#custom #tokens #embossed
Embosed or relief-printed tokens are made of plastic and can be personalized on both sides. Your design will be embossed onto the tokens in the same color as the tuits. The text or logo will be clearly legible and recognizable by touch. These embossed tokens have an edge for your comfort, just like our other products. To add extra personalization options, we can offer you a wide range of standard designs for these embossed tokens, which do not require setup charges.

Tokens printed in 1 color

Our tokens are printed digitally with adhesive ink. This offers great advantages as this hi-tech production method allows us to print very sophisticated and detailed designs. Moreover you can personalize each token individually with names, numbers, barcodes, QR-codes ...

On one color printed tokens your design will be printed in one color. Almost every printing color is possible. Just like the embossed coins, the printed ones are made of solid plastic material and have an edge for your comfort.

ECO-TOKENS

#ecological #embossed #nature
As we have always felt very strongly about the environment, b-token never produced anything other than tokens that generate 0% waste. And now, taking our commitment to the environment another step further we are proud to present... our ECO-TOKEN™, a 100% biodegradable token.

These environmentally-friendly tokens are made from starch-based bioplastic. And just in case you were wondering where we’re getting all this starch from, well, we simply extract it from all the potato peels we go around collecting from the French-fry producers. So there you have it, our ECO-TOKEN™ are 100% biodegradable in nature, because they are made from natural and renewable resources!

So when it comes to tidying up after an open-air event, a gig in the park, or a happening on a sports field, you will now also find Mother Nature at the ready to give you a helping hand. For, when our tokens are exposed to rain, UV rays, oxygen and bacteria, they will quite simple decompose into CO2, water and biomass, a natural fertilizer that boosts plant growth. And for those amongst you who might become slightly concerned... our ECO-TOKEN™ will not decompose unless they are exposed to all four factors.

WOODEN TOKENS

#wooden #tokens #exclusive
**Wooden Tokens**

Our Wooden Tokens are the most exclusive tokens in our range. Initially exclusive to the USA, these tokens made of wood have now also been embraced by the European market with enthusiasm. Used foremost as a currency alternative, Wooden Tokens also make a perfect marketing tool and are also widely used for competitive games and geocaching.

Wooden Tokens are manufactured from wooden fibre and resin, through an extraordinary production technique. This results in a personalized MDF token (Medium-Density Fibreboard). All materials are 100% naturally sources and therefore fully biodegradable in the embossed choice.

BRAILLE TOKENS
#brailletokens #embossed #solidarity
We constantly strive to be a socially responsible organization and we want full integration of each individual in our society ... also blind and partially sighted people. That's the main reason why we decided to develop the Braille Token™.

The Braille Tokens™ are made of plastic and can be personalized on both sides. Your design will be embossed onto the tokens in the same color as the coins. The text or logo will be clearly recognizable by touch. These Braille Tokens™ have an edge, just like our other products, for easy handling. We have chosen to only offer Braille Tokens™ in 1.5” diameter, our biggest round tokens.

Token box

At events, speedy and efficient customer service is of the essence. Our stainless steel token boxes have been designed in such a way that you can easily throw a handful of tokens into them in one go. Furthermore, our clever security feature ensures that tokens cannot be removed by unauthorized persons.

Every token box comes with two keys. For security reasons, spare keys cannot be cut or ordered afterwards. Every box is also numbered. The lid can be locked with the keys that are supplied with the box.

Depending on the size of the tokens used, one box can accommodate about 3000 coins. Thanks to our boxes’ clever design, you are not limited to any particular shape of token.
